Barnett 'Scorpion' Clutch Kits

Billet clutch features over twice as much friction surface area compared to your stock clutch. Provides a positive engagement and release. The problem of "finding neutral" is virtually eliminated and shifting through the gears becomes smooth and precise. Steel spacers on the clutch pack ends, eliminate wear on the aluminum surfaces. Clutches incorporate six heavy-duty coil springs instead of stock diaphragm spring. In addition, an extra spring set with a different spring rate is included, which allows the clutch to be tuned from mild to wild depending on the usage. Tunability is easy without the removal of the primary cover. The Barnett friction plates are compatible with all primary lubricants.

'Scorpion' Clutch Kit features include:

- Heavy-duty snap ring for extra bearing support
- Chromemoly steel hub for strength/durability
- Solid steel thread inserts that resist stripping
- Nine clutch plates with steel spacer at the ends to minimize wear on aluminum surfaces
- Aluminum pressure plate for light assembly and strong pressure
- Six heavy-duty, self-adjusting springs that are 40% stronger for more pressure and can be alternated for a 20% increase

14634 Fits Big Twin models from 98-06 (except 06 Dyna Glide models)
693970 Fits Dyna models 06-14 and Softail & Touring models 07-14
14635 Fits Big Twin models from 90-97

Clutch Parts for 5-Speed Big Twin Models

Replacement components for their Original Equipment counterparts. Sold each.

17422 Clutch pressure plate for Big Twins from 90-97 (repl. OEM 37912-91A)
17441 Clutch pressure plate for Big Twins from 98-Up (repl. OEM 37912-98)
17423 Clutch release plate for Big Twins from 90-97 (repl. OEM 37903-90)
17427 Clutch seat for Big Twins from 90-97 (repl. OEM 37872-90)
17428 Clutch mainshaft nut for Big Twins from 90-97 (repl. OEM 37496-90)
070018 Clutch bearing for Big Twins from late 84-89 (repl. OEM 37906-84)
75579 Clutch bearing for Big Twins from 90-06 (repl. OEM 37906-90)

Outer Clutch Baskets

Include the primary sprocket and the starter ring gear.

629310 Fits all Big Twins from 07-10 (repl. OEM 37813-06A)
17660 Fits all Big Twins from 98-06 (repl. OEM 37707-98A)
17421 Fits Evolution Big Twins from 94-97 (repl. OEM 37707-94)
17420 Fits Evolution Big Twins from 90-93 (repl. OEM 37707-90)
629311 Fits all Sportster models from 91-03 (repl. OEM 36790-91)

Replacement Starter Ring Gear Kits

Includes the ring gear and new hardware for installation.

23184 102-tooth ring gear kit for CC #'s 17660, 17421 and OEMs 37707-98A, 37709-94
23185 66-tooth starter ring gear with hardware for CC #17420 and OEM 37707-90

Inner Clutch Hubs

Replacement inner clutch hubs for Big Twin models from late 84-06. The early model hub (CC #17425) includes an improvement to the tapered sleeve to prevent it from splitting at the keyway as was common on the original design. Also included is a Clutch Hub Reinforcement Washer (CC #15060) that adds greatly to the strength of the part, eliminating such breakage.

17661 Fits all Big Twins from 98-06 except 06 Dyna (repl. OEM 37550-98)
17436 Fits Evolution Big Twins from 90-97 (repl. OEM 37550-90A)
17425 Fits Evolution Big Twins from late 84-89 (repl. OEM 37550-84A)

Clutch Retaining Rings for Big Twin and Sportster Models

These often neglected service items should be replaced whenever the clutch is disassembled. Sold in packs of 10.

17412 Pressure plate internal retaining ring for Big Twins from 90-97 (repl. OEM 37908-90)
17413 Pressure plate external retaining ring for Big Twins from 90-97 (repl. OEM 37909-90)
17426 Clutch hub external retaining ring for Big Twins from 90-97 (repl. OEM 37904-90)
35107 Pressure plate retaining ring for Big Twins from late 84-89 (repl. OEM 37907-84)
35108 Clutch hub bearing retaining ring for Big Twins from late 84-89 (repl. OEM 37904-84)
56263 Clutch hub retaining ring for Sportster and Buell models from late 84-02 (repl. OEM 11046)

Clutch Hub Reinforcement Washers

15060 For Big Twin clutch hubs from 84-89 with 1.365" O.D. sleeve. Sold in packs of 5 (repl. OEM 37550-84A)
15061 For Big Twin clutch hubs from 84-89 with 1.377" O.D. sleeve. Sold in packs of 5 (repl. OEM 37550-84)
