MMB®

MMB 48mm Digital Speedometers

Digital speedometers in a compact 48mm diameter, available in different styles, housings, brackets and illumination. The perfect item for all custom cruisers. Easy to adjust with installation manual in mph and km/h. Brackets with housing in chrome or black and handlebar clamps sold separately.

'Micro Mini' Indicator Light Units

Only 1.9" (48mm) in diameter for bikes without dash panels or stock indicator lights. They're available with square symbols and black or white face or with round symbols and black face and housing. They feature high beam, oil pressure, turn signal, and neutral lights. Include mounting brackets.

Face	Chrome Plated	Black Coated
Black	**84829**	**86028**
White	**84830**	**86174**
