MMB®

MMB Retro 'Micro Mini' Electronic Instruments

Latest technology now available with cool retro style faces for old school bikes made in Europe. Now available with step motor to fit all sensors. Comes without bracket and cup which must be ordered separately. The smallest speedometers, tachos, oil pressure gauges and clocks (48 mm) on the market with analog display for readout and an LCD display (speedos) to display time, total or trip distance. Available with yellow illumination on your choice of black, ivory, alu and white faces, and simple to operate. The versions with black housing and gold trim ring are available with ivory scale only. To be used in OEM applications as well as in aftermarket installations (with RevTech 5-speed and 6-speed transmissions).
