

17141

Transmission Mounting Plate for Softail Models

Looks great, works great. Chrome-plated, black or raw steel plate will fit all Softail models from 86-99. Replaces OEM 47698-86B.

- 17141** Chrome transmission mounting plate, Replaces OEM 47698-86B
- 650141** Black transmission mounting plate
- 650138** Raw transmission mounting plate

4-Speed Type Billet

Transmission Mounting Plates

Here's a great new line of transmission mounting plates! The mounting plates for 4-speed transmissions are made of billet aluminum and available in stock or offset versions for wide tire applications. The other mounting plates allow you to put a 85-99 Softail style 5-speed transmission in 4-speed rigid style frames. Is that cool or what! These plates are made from 3/16" steel plate and are machined, not stamped. Available in stock as well as offset versions for wide tire applications. You can't find a better selection anywhere else Bro! Made in USA by Motorway.

Tranny Plate for 4-Speed Big Twin frames

- 632015** Stock with no offset
- 632016** 1/4" offset
- 632017** 1/2" offset
- 632018** 1" offset

TOP SELLER

Adjustable Mounting Plates

High-quality American-made transmission mounting plate is CNC-machined for accuracy. The built-in dual adjusters operate from the end of the 1/2"-thick steel plate by counter-bored sockethead screws. They permit accurate alignment of the mainshaft, ideal for open belt drives. Three holes at the front to fit various frames. Fits 4-speed Big Twin transmissions from 79-86 with flat bottom cases and 36-E78 if the sliders are milled off the bottom of the case.

- 17138** Black

Note: Will not work with S.T.D. 4-speed cases.

Steel Offset Transmission Mounting Plates

Permit you to put 5-speed transmissions for Softail models in 4-speed rigid frames. Made from 3/16" steel plate and are machined, not stamped. Offset versions are available for wide tire applications. Made in the USA by Motorway.

- 632009** Stock with no offset
- 632010** 1/4" offset
- 632011** 1/2" offset
- 632012** 3/4" offset
- 632013** 1" offset
- 632014** 1 1/4" offset

Note: This conversion will require you to update your 4-speed primary and starter to those fitted to 5-speed Softail models. Additionally, if you use a 86-89 Softail transmission, you will need to use a 86-89 clutch hub, and if you use a 90-99 transmission, you will need to use a matching clutch hub.
