

'Brakester' by DNA

This drive-side brake caliper/pulley combination allows you to show off the other side of your rear wheel. This combination features the Super Spoke design, and greatly complements laced rear wheels. Each kit comes complete with mounting hardware, spacers, linkage, and weld-on frame tab. 84-99.

- 640695** Kit with 1 1/8"-wide, 65-tooth pulley
- 640696** Kit with 1 1/8"-wide, 70-tooth pulley
- 640697** Kit with 1 1/2"-wide, 65-tooth pulley
- 640698** Kit with 1 1/2"-wide, 70-tooth pulley

'Sprockster' by DNA

This drive-side brake caliper/sprocket combination allows you to show off the other side of your rear wheel. This combination features the Super Spoke design, and is a great match to any wheel, billet or laced.

- 640744** Kit with 48-tooth sprocket
- 640745** Kit with 51-tooth sprocket

'The Correct' Rear Wheel Pulley Spacers CV2000

Made from 6061 T6 aluminum. Machine finished. 683977 allows you to use a late model 1 1/8 pulley on an early style wheel. 683978 & 683979 spacers allow the use of any combination of early or late style wheel, pulley, or sprocket combination. Patent pending.

NOTE: Spacers are designed to work on hubs with a .187 flange height.

'The Correct' Rear Wheel Pulley Spacers

- 683975** Rear Wheel Pulley Spacers (00-Up Wheels) 1/4" thick
- 683976** Rear Wheel Pulley Spacer (84-99 Wheels) 1/4" thick
- 683977** Rear Wheel Pulley/Sprocket/Adapter (84-99 Wheels) .075 thick
- 683980** Rear Wheel Pulley/Sprocket/Adapter (84-Up) 5/8" thick
- 683981** Rear Wheel Pulley Spacer (00-Up) .100 thick

Vulcan Engineering Dual Bolt Pattern Pulley/Sprocket Spacers

CNC-Machined from 6061 billet aluminum bar stock Spacers have dual bolt patterns, this allows you to bolt the spacer to your wheel with the supplied bolts and then bolt your pulley/sprocket to the spacer with your stock bolts. There is no need for extended length bolts. Available for 84-99 models with a 1.986 locating diameter & 00-Up models with a 2.208 locating diameter. These spacers have clearance for 3/4" & 1" diameter axles.

Fits 00-Up models (2.208 locating diameter)

- 668248** 3/4" thick pulley/sprocket spacer
- 668249** 13/16" thick pulley/sprocket spacer
- 668252** 1" thick pulley/sprocket spacer

Fits 84-99 models (1.986 locating diameter)

- 668243** 3/4" thick pulley/sprocket spacer
- 668244** 13/16" thick pulley/sprocket spacer
- 668245** 7/8" thick pulley/sprocket spacer
- 668246** 15/16" thick pulley/sprocket spacer
