Chrome-Plated Front Axles

The greatest selection of chrome axles in the industry. Complete assemblies for models as far back as 36. Fully-chromed, including the hardware. Axle shafts are machined from heat-treated chrome moly steel, triple-step chrome-plated, then machine-polished and ground to a finish size tolerance of $\pm .0005$ ". Axles are available individually or packaged complete with a fully-chromed hardware kit. Photo shows contents of hardware and axle kits as well as the basic axle profile.

ILLUS	APPLICATION	Replaces Axle OEM#	Axle Only	Hardware Only	Hardware & Axle Kit
