Disc Brake Rotors

A wide selection of zinc-alloy and stainless steel disc brake rotors to fit most Harley-Davidson models from 72-99. The stainless steel rotors are surface induction hardened with a 12-14% chrome content for superior wear characteristics on #420 steel plate. Each rotor is precision-ground for trueness, and available in vented and non-vented versions which are interchangeable with Original Equipment disc rotors.

Note: Zinc rotors are not compatible with sintered metal pads.***Fit Sportster and FX models with single disc from 74-77 (replaces OEM 41807-74)***

11 1/2"-diameter, countersunk mounting holes, use stock hardware or CC #36228 chrome-plated screw set.

19066 Plain zinc
25636 Vented zinc
24626 Vented stainless steel

Fit all FX, FXR and Sportster models 77-83 with dual disc front brake (replaces OEM 44137-77A)

10"-diameter, countersunk mounting holes, use stock mounting hardware or CC #25193 chrome-plated screw set.

25640 Plain zinc
25637 Vented zinc
24627 Vented stainless steel

Fit all single or dual disc front brake applications from 84-99 (replaces OEM 44136-84A)

11 1/2"-diameter, counterbored mounting holes, use stock mounting hardware or CC #'s 36229 or 36231 chrome-plated screw sets (two sets required for dual disc applications).

25634 Vented zinc
24624 Vented stainless steel

Fit the front of FL models from 72-84 and the rear of FL or FX models from 73-80 (replaces OEMs 41806-72B, 41813-79)

10"-diameter, counterbored mounting holes, use stock hardware or CC #'s 36227 or 36226 chrome-plated hardware kits.

25641 Plain zinc
25638 Vented zinc
24628 Vented stainless steel

Fit the rear of all FX and Softail models from 81-91, the rear of all Sportster models from 79-91, and FXR models from 82-91 (replaces OEM 41791-79A)

11 1/2"-diameter, tapered countersunk mounting holes, use stock hardware or CC #36230 chrome-plated screw set.

25630 Plain zinc
25633 Vented zinc
24625 Vented stainless steel

Fit the rear of all Sportster and Big Twin models (except FLT, FLHT, FLHS and Road King models) from 92-99 (replaces OEM 41789-92)

11 1/2"-diameter, counterbored mounting holes, uses stock hardware or CC #32573 chrome-plated screw set.

24630 Vented stainless steel
