

41mm 7° or 0° Triple Tree Dimpled Design by Cycle Kraft

652634 Dimpled triple tree 41 mm 7°, polished

652636 Dimpled triple tree 41 mm 0°, polished

Polished Custom Chrome 39 mm Fork Conversion Kits

These kits will change your stock front end to the width of a Wide Glide front fork, and include a stainless steel fork stem with a hole for the steering lock, axle and spacers, brake rotor spacer and extended bolts. They are available in stock rake for single disc models. If dual discs are required, an additional brake rotor spacer kit is available separately. The upper and lower trees are machined from 28 mm-thick aluminum plate. The fork stem, fork stop and hardware are made from stainless steel.

- 86142** Stock rake for all Sportster, FXR and Dyna Glide models with 39 mm fork tubes from 88-99
- 686168** 5° rake for all Sportster, FXR, FXDL and Dyna Glide models with 39 mm fork tubes from 88-99

- 686198** 6° rake for FXD, FXR and XLH models from 88-99
- 686199** 0° rake for FXD, FXR and XLH models 00-04
- 686200** 6° rake for FXD, FXR and XLH models 00-04

'Smooth Top' Chrome Billet Triple Tree Set

The ultimate custom triple tree. Sculpted by state-of-the-art CNC-mills from aircraft quality aluminum. These trees not only have a mirror polished chrome finish but also have custom smooth top stem nut system. Head cup bearing tension is adjusted from the bottom for the cleanest top clamp possible. Recessed underside headlight mount. All hardware, stem bolt, handlebar damper, and fork stops are included.

- 98330** Fits all cast neck frame applications using 41 mm fork tubes from 36-99 (0° rake)
