**RBS V-ROD Cooler Cover**

For our V-ROD customers, who want to achieve a spectacular style of their V-ROD bike, the RBS V-ROD cooler cover is the ideal supplement replacement of the original cover. The cover is made of aluminum and will be mounted with a high-grade steel mat which fits between the cooling slots. Trouble-free mounting is guaranteed! The cover is available in raw-aluminum or high polished black coating.

**683173** V-Rod cooler cover, black

**683174** V-Rod cooler cover, aluminum

**RBS Phantom Side Cover**

As a radical complementary enhancement to our X1 Phantom Cover, we offer the RBS Phantom Side Cover Kit.

**683172** Phantom side cover for V-Rod models

**RBS X1 Phantom Airbox Cover**

If you want to give your V-ROD a spectacular design, you hit the nail on the head with our RBS X1 Phantom Air Box Cover Kit. The original control/instrument unit will be seamlessly integrated into the X1 Phantom Cover, using the chrome blind (which is part of the kit). This type of mounting creates additional space for different handle bar types and risers. The site air channels – covered by aluminum race grids – don't only look fancy, it also let your bike 'really breathe'. The X1 Phantom Cover kit (made of GFK/Kevlar) comes with all parts, required for a trouble free mounting – all parts made in Germany.

**683170** Airbox cover for V-Rod A models (OEM Dash)

**683171** Airbox cover for V-Rod B models (OEM Dash)
