

★ CUSTOM ★

Custom Steel Fenders

Construction starts with two pieces of heavy-gauge steel which are formed and welded into shape. Finally, the fender is sanded and finished out, making it primer ready. Used by many of the top bike builders for their unmistakable style and superior quality.

Custom Front Fenders

Steel front fenders designed for custom applications. Be sure to check installation and fit before painting.

4 3/4"-Wide Fenders

- 13794 'Forty'
- 13795 'Roller'
- 13796 'Tombstone'

Note: When installed in conjunction with 21" front wheels, only Dunlop and Metzler low-profile tires are recommended due to clearance issues.

6"-Wide Fenders

- 11526 'Tombstone'
- 11531 'Roller'

'Mama Jama' Steel Fenders

A set of these custom fit at just the right angle and some sharp paint is about all that's needed for a full-blown custom bike.

Front Fenders

- 13170 4 3/4"-wide

Note: CC #13170 is designed for low-profile 18" tires, standard profile 19" tires, and low profile 21" tires with an outside diameter of 28" or less.

'Diablo' Custom Front Fenders

Styled to draw attention anywhere you go. Made of 18-gauge steel and come undrilled for all types of custom applications.

- 16952 4 3/4"-wide

Note: CC #16952 is designed for low-profile 18" tires, standard profile 19" tires, and low profile 21" tires with an outside diameter of 28" or less.

"Bicycle Style" Front Fender

Sometimes you want a front fender to keep the rain off of you, but you don't want to put something big & ugly on your ride. Well, here's

just about the smallest front fender you can find, and it looks sweet when mounted! Very minimalistic, very functional. Fender comes raw steel, with the edges rolled as shown. Measures 4" wide. Undrilled for universal fitment... you fab the mounts. Hook it up with our 5 1/2" wide "Bicycle Style" Rear Fender (#632598) for a bitchin' look! From the Easyriders crew in Tokyo, Japan.

- 632597 "Bicycle Style" Front Fender

"Ribbed" Steel Fenders

By popular request, we're making available Steel versions of our sought after Aluminum "Ribbed" fenders. These universal fit fenders feature

a retro-style raised center rib, and come un-drilled to allow you to mount as desired. Fenders have rolled edges, and have a slight "duckbill" flip on one end for a very finished look! These are unique retro styled fenders that look out of sight on old school rides. Great on chopped Triumphs & BSA's! Raw steel. Available in 2 sizes as noted. Hook these up with our ribbed Bobber style gas tanks from Cole Foster! From the Easyriders crew in Tokyo, Japan

- 632599 "Ribbed" Steel Fender. 4-3/4" wide. For 19" tires
- 632600 "Ribbed" Steel Fender. 4-3/4" wide. For 18"/19"/21" tires

Wide Fenders for Rigid Frames

Custom flat fenders made of heavy-duty 14-gauge steel in wide widths to cover that really big rubber.

- 95073 7 1/2"-wide
- 95074 8 1/2"-wide
- 95075 9"-wide
