

**Custom Chrome Custom "Low Tunnel" Gas Tank**

This 2.8 gallon custom tank features a 1 1/2" high tunnel with universal style mounts for custom applications. Accepts 3/8" NPT threaded petcock. Tank measures 15 1/2"-long x 9"-wide x 7"-high with a 1 1/2" tunnel.

**260121** Unpainted steel

Note: All fuel tanks should be test fitted, pressure tested, and pre-sealed before painting.

**'Peanut' Tank for Sportster Models**

A quality reproduction of the Original Equipment 2.4 gallon gas tank.

**12724** Fits early Sportster and K models from 55-78 (replaces OEM 61006-63B)

Note: All fuel tanks should be test fitted, pressure tested, and pre-sealed before painting.

**Smooth-Bottom Tanks for Sportster Models**

An updated design with a 3.3 gallon capacity and rounded lower edges. Very similar to the latest factory design, but with petcock locations and mounts for early or late frames. Includes mounting hardware.

**15664** Fits Sportster models from 82-94

**'King' Tanks for Early Sportster Models**

2"-wider than the 'Standard' tank... enough to give extra mileage and just wide enough to make them look great. These high tunnel tanks are equipped with stock mounts but do not include mounting hardware. They have a 3.1 gallon capacity. 3/8" NPT.

**19639** Fits all models from 55-78

**25574** Fits all models from 79-81

**650246** Fits all models from 82-92

**Rubber Mounted 'King' Tanks for Sportster Models**

Classic good looks of the original 'Peanut' tank, but with increased capacity for an extended cruising range. We took our best-selling 3.25-gallon capacity 'King' tank and added rubber mounts to the front and rear. By isolating the tank, we've reduced stress on the tank mounts for increased durability. Require vented screw-type gas caps.

**25573** Fits Sportster models from 82-94 (repl. OEM 61203-87)

**Fat-Bob Style Tanks For 04-06 Sportsters**

Stock replacement tank for 04-06 Sportster models with rubber mounted engines. They feature an offset, stock-style screw in with vent and have a standard 22mm external thread petcock installed on the left side. Each tank includes threaded hose line fittings for the vent bung on the bottom right-side of the tank. They attach to the stock frame mounting points and have a 4,5 gallon capacity.

**653129** 4,5 gallon gas tank (gas cap not included)
