Fuel Injection to Carburetor Conversion Tank Fitting Kits by Pingel

Pingel has developed the perfect kit to help you convert your fuel injected bike over to a carburetor to help deliver more power to that 'big-inch' motor. The kit replaces the OEM fittings and allows you to install the Pingel Power-Flo fuel valve of your choice. Made of stainless steel right here in the U.S.A.

- 688504** Conversion kit for 95-01 Touring models with Magneti Marelli EFI (adapter & plug) for use with any Pingel 22mm fuel valve
- 688505** Conversion kit for 00-03 models with Delphi EFI (adapter & plug) for use with any Pingel 22mm fuel valve
- 688506** Conversion kit for 00-13 models with Delphi EFI (adapter only) for use with any Pingel 22mm fuel valve
- 688507** Conversion kit for 07-13 Sportster models with Delphi EFI (adapter only) for use with any Pingel 1/4" NPT fuel valve

Weld-In Petcock Bungs by Pingel

These tank bungs come in 22mm (stock H-D) male or 3/8" NPT female and are designed to be welded directly to the fuel tank. Great for custom gas tanks or repairing of stock tanks.

- 688500** 22mm aluminum weld-in bung
- 688501** 22mm steel weld-in bung
- 688502** 3/8" NPT aluminum weld-in bung
- 688503** 3/8" NPT steel weld-in bung

Big Twin Valve Adapter for 35-65 Tanks by Pingel

This product offers better fuel flow and retains the stock crossover connection of your 35-65 Harley-Davidson Big Twin split fuel tanks. Don't let the stock fuel valve be the bike's main jet. The stock fuel valve set up simply cannot support today's high performance engine fuel demands. This stainless steel gas tank adapter and any of the 22mm threaded Pingel Power-Flo fuel valves will drastically improve your fuel supply.

- 688508** Fuel valve adapter for 35-65 Big Twins

Pingel Fuel Filters

The Pingel fuel filter is built to appeal to the true motorcycle enthusiast. This filter offers the same high quality as our fuel valve line and is designed and machined from billet aluminum. Close attention to detail and aesthetic quality is the standard and the result is a beautifully finished product that includes a cleanable bronze element that will last a lifetime. Pingel filters are the only filters designed to meet the high flow requirement needs of the Pingel Power-Flo gas valves, as well as today's high flow carburetors. The fuel filters are available with 5/16" or 3/8" hose barb and also with a -6AN male thread inlets and outlets. Made in the U.S.A.

- 26603** Fits 5/16" I.D. fuel line
- 688509** 5/16" polished fuel filter
- 688510** 3/8" chrome fuel filter
- 688511** 3/8" polished fuel filter
- 688512** -6AN chrome fuel filter
- 688513** -6AN polished fuel filter
- 688514** Repl. 40 micron bronze filter element
