

### Accel High-Flow Petcocks

American-made high-flow petcocks feature chrome-plated bodies and 5/16" O.D. hose bars. Other features include a reserve function, 100 micron filtering screens, and easy-to-grasp handles. Bodies are engineered to prevent leakage, yet deliver maximum fuel flow for high-performance applications. Two of the petcocks have a swiveling banjo which rotates 180° for custom hose routing. Fit all Original Equipment or aftermarket tanks with 22mm bungs.

- 27051** Petcock with horizontally rotating barb
- 27050** Petcock with straight down barb
- 668376** Petcock with vertically rotating barb

### 'Wing' Type Fuel Valve

This classic was used on early Sportsters but it can be used on any tank with a 3/8 NPT petcock outlet.

- 688254** Wing type fuel valve

### Viton Seals for Petcocks

Viton material eliminates the swelling problems associated with the various fuels available today. The 3-hole design (not shown) fits petcocks with .260"-diameter fuel tubes. Pack of 10.

- 12728** 4-hole seal
- 12731** Replacement 3-hole Viton seal (fits latest design with .260" fuel tubes)

### Vacuum Petcock Bypass Kit

Bypass the Original Equipment vacuum operated petcock. Easy to install. Fits most Big Twin and Sportster models from 98-06 (except fuel injected models).

- 25257** Complete kit

### Brass 6-AN Adapter Fittings by Golan Products
