47715

Custom Pop-Up Gas Caps

- Vented gas caps that don't protrude from the surface of the gas tank at all!
- To access the filler, you press and twist... the cap pops up, then unscrews normally
- For custom "weld-in" applications ONLY
- Sold each

- 47715** Stainless steel bung and cap

Replacement Pop-Up Caps ONLY

- 47775** Stainless Steel (sold each)
47777 Chrome (sold each)

"Speedster" Gas Cap from Crime Scene Choppers

Saw this gas cap on one of the builds from Eric of Voodoo Choppers, and just had to add it to our Handbook! This unique gas cap harkens back to the 50's Indy cars, and has that early "Hot Rod" spirit! Handcrafted from aluminum with a satin finish, and features a mirror finished stainless latch mechanism. Other highlights are stainless steel pivots and mounting screws. A die-cut viton gasket is included. Steel weld-in boss for installing the cap is required, and available separately. Made in USA.

- 632153** "Speedster" Gas Cap

- 632154** Steel "weld-in" mounting boss for #632153

Gas Caps By Wannabe Choppers

If you are looking for a cool add to your retro or old school bike you should consider to take on of these outstanding gas caps. The Flying eye is made of aluminum cast and is mounted on a CNC screw-in style cap. The massive knurled brass version comes with high gloss polished top. Made in Germany at Wannabe Choppers.

- 619876** Brass knurled cap for models 82-

- 619877** Flying Eye cap for models 82-

Spinner Style Gas Caps

Give your bike a touch of hot rod with these spinner style gas caps. Available in chrome or black finish for most model years. Dummy caps to replace the fuel gauge on 00-Up models are also available. Sold each.
