

Chrome Oil Filter Housing for Evolution Big Twins Models

Replace that original equipment black or silver painted oil filter housing with a nice clean looking chrome aluminum die cast one. For custom slip-over steel braided or rubber oil line applications. Accepts all Harley style spin-on oil filters. Includes chrome oil line fittings.

- 20301** For stock oil lines (repl. OEM 26381-92A) Evolution Big Twin 92-99
- 20302** Fits Evolution Big Twin models 92-99

Spin-On Oil Filter Kit

A high-tech replacement for your canister-type oil filters. It's approximately the same size as the stock unit and accepts CC #25250 chrome spin-on filter to eliminate leaks. Makes filter changes clean and easy. Comes with both threaded and slip-on fittings. Uses our mounting brackets.

- 26650** Spin-on filter kit
- 25250** Chrome oil filter (replaces OEM #63796-77A)

RBL Flat Oil Cooler Kit

This type of oil cooler was specially developed to work on HD models. They fit all Big Twin models (Evo -99 and Twin Cams 99-). They mount with two clamps to the frame down-tubes and use one top screw where the crash bar normally has to be mounted. Simple installation because you need no additional parts except some oil lines. As an option we offer a special oil filter adapter plate with integrated bypass valve which allows the regulation of the oil flow without measuring the oil temperature. Available in black or polished version!

- 653933** Flat Oilcooler S/T 84-99 polished 29mm
- 653934** Flat Oilcooler S/T 84-99 black 29mm
- 653935** Flat Oilcooler TC S/T 00-14 polished 32mm
- 653936** Flat Oilcooler TC S/T 00-14 black 32mm
