INSTRUMENTS & GAUGES

17

Mini Gauges

These gauges feature chrome cases with polished stainless steel bezels, strong chrome steel mounts, rubber mount handlebar clamps, accurate non-fluctuating indicators and 12-volt dial lights. They measure 2 5/8" wide x 2 1/16" deep. Durable housings are water and vibration resistant. The speedometers require cables with 12mm threaded nuts.

Speedometers ONLY

The 1:1 ratio units fit 4-speed FL and FX models with transmission driven speedometers from 68-83. The 2:1 ratio units fit 54-72 Sportster and K models, and FL models with transmission speedometer drives from 47-67. They also fit Sportster, FX and FXR models with front wheel speedometer drives from 73-90 (except Softail and 4-speed FXWG models). The 2240:60 ratio unit will fit Softail and 4-speed FXWG models from 84 thru 90, and 4-speed FL models with front wheel speedometer drives from 81 thru 84. It may also be installed on Softail models from 91 thru 95 if the self-cancelling turn signal feature is forfeited.

- 27800** 1:1 ratio with 140 MPH face
- 27810** 2:1 ratio with 140 MPH face
- 310417** 2:1 ratio with 180 KM/H face

Speedometer Kits with Cables

These kits feature the same high-quality speedometers listed above, and include a speedometer cable to facilitate installation.

- 310434** 2240:60 ratio with MPH face for Softail and 4-speed FXWG models from 84-90, and 4-speed FL models with front wheel speedometer drives from 81-84. May also be installed on Softail models from 91-95 if the self-cancelling turn signal feature is forfeited
- 27860** 2:1 ratio with MPH face for Sportster and K models from 54-72, and FL models with transmission speedometer drives from 47-67
- 27861** 2:1 ratio for Sportster, FX and FXR models with front wheel speedometer drives from 73-90
- 27862** 1:1 ratio for 4-speed FL and FX models with transmission-driven speedometers from 68-83

Speedometers with Resettable Odometers

The 2:1 ratio units fit 54-72 Sportster and K models, and FL models with transmission speedometer drives from 47-67. They also fit Sportster, FX and FXR models with front wheel speedometer drives from 73-90 (except Softail and 4-speed FXWG models). The 2240:60 ratio unit will fit Softail and 4-speed FXWG models from 84-90, and 4-speed FL models with front wheel speedometer drives from 81-84. It may also be installed on Softail models from 91-95 if the self-cancelling turn signal feature is forfeited.

- 310718** 2240:60 ratio with 160 MPH face
- 27805** 2:1 ratio with 140 MPH face
- 688058** Black housing 2:1 ratio with 140 MPH white face
- 27807** 2:1 ratio with 180 KM/H face

Tachometers ONLY

- 27820** 2:1 ratio for all models with mechanical tachometers
- 27821** Electronic tachometer for most models from 73-03
- 688059** Black housing white face electronic tachometer for most models from 73-03

Tachometer Kit with Cable

This kit features the same high-quality tachometer listed above, and includes a tachometer cable to facilitate installation.

- 27863** 2:1 ratio for all models with mechanical tachometers

Replacement Parts

- 16041** Handlebar gauge clamp
- 27823** 12-volt bulb (twist type) box of 10
- 27824** 12-volt bulb (push-in type) box of 10
- 27852** Black vinyl speedometer cable for CC #27862 (53"-long)
- 19084** Black vinyl speedometer cable for CC #'s 27860 and 27861 (38 1/2"-long)
- 310464** Black vinyl speedometer cable for CC #310434 (38 1/2"-long)
- 310497** Braided steel speedometer cable for CC #310434 (38 1/2"-long)
