The MC625R is how K&L Supply defines Air Superiority.

This lift combines the best features of our MC650R hydraulic lift with the convenience of air. The new Ram Squared twin cylinder system gives the MC625R a rated working capacity of 1750 lbs. Optional side panels, now with our redesigned fastmount system, increase the working width of the MC625R to 59", allowing the widest utility vehicles and golf carts to be serviced. An easy to install extension is also available, adding two feet front or rear to the overall length for custom bikes. Combine those features, plus the value you expect from K&L, and you have a lift that will be right for all of your needs.

- 29.5 x 86.5 deck
- Drop panels at front and rear of lift
- Max raised height of 40", lowered height is 8.0"
- Automatic safety locks
- Loading ramp included
- One year warranty

Front/Rear Extension Form C625R

If you work on long bikes, this is what you have been looking for. These extensions fit into the lifts frame members, and can be used at the front or rear of your 625. Each extension is 24" long, and matches the lifts deck width of 29.5". When using an extension at both ends of the lift, the overall deck length

is 134.5", more than eleven feet! Extensions are easily removed when working on standard sized bikes. (Without wheelclamp)

612229 Front/Rear extension panel for MC625R

MC10R Universal Wheel Clamp

The MC10R Universal Wheel Clamp allows one person to load and unload a motorcycle on any flat deck lift. The pivot mechanism uses the weight of the bike to hold itself upright, leaving your hands free to secure the bike. The included rails mount to the deck so you can also slide the MC10R forward to handle short wheelbase bikes.
