

622061

### JIMS 3rd Hand Axle Tool

If you have noticed, as you are torquing down the axle nut after you set the proper belt tension (Deflection), the welded axle nut will move to the low side of adjuster cam. This movement will allow the belt to lose adjustment. Now with the "JIMS 3rd Hand Axle Tool", you won't need to find a helper to hold the nut or have to reach around the tire yourself to keep the nut from moving. Just place this tool over the welded nut on left side with the neck portion of tool resting over the swing arm. Hand screw the adjusting screw to take up any slack in tool. Torque the axle nut from the right side knowing that the welded nut will not turn allowing the belt to lose its adjustment. Sold each.

**622061** For all 02-14 FL models

### JIMS Rear Axle Nut Torque Adapter

Assists in adjusting the drive belt tension or rear wheel alignment. Eliminates the need to remove the mufflers to perform this service. Designed with a 1/2" drive receiver hole for inserting a torque wrench allowing the axle nut to be torqued from an offset position

**622045** FL Touring Models 06-Up

### Radial Ball Bearing Remover by Motion Pro

This set uses a split 3/4" collet design to remove radial ball bearings on H-D models.

**640114** Remover set

**640115** 3/4" & 1" Radial Ball Bearing Remover Set

**640135** Complete Set (includes 3/4", 1", & 25mm removers)

### JIMS Rear Wheel Compensator Bearing Remover & Installer Tool

Use to remove and install the new compensator ball bearing after the rear pulley is removed from the rear wheel drive bowl. This bearing is now positioned with the rubber isolators in the drive bowl. The tool will center and guide the installer plug with the center of the pulley for safe bearing installation. Sold each.

**622052** For all V-Rod, XL & FL models 08-14

### Tire Irons

Designed for easily getting between tire bead and rim without pinching tubes.

**5008004** Card of 10

### Motion Pro 16" Curved Tire Iron

Black finish hardened alloy steel. Double compound curve makes removing the toughest tires a breeze. Also makes a great pry bar.

**5008007** Sold each, replaces OEM 94481-89T

### CruzTOOLS

#### CruzTOOLS TirePro Digital Tire Gauge

Compact ergonomic shape for easy pressure reading with large display, readings in 1/10 psi increments.

- Readings available in multiple scales: PSI, Bar, Kpa, Kg-qcm
- Auto power off, with recall of last reading

**5861184** Sold each

nylon pouch not shown
