

### Custom Chrome Engine and Cover Sets

Chrome-plated components in kits for specific applications by year and model. Most kits are available in chrome-plated knurled sockethead hardware, or with the head polished smooth before plating. Some kits may contain hex or buttonhead hardware where sockethead hardware is not appropriate.

#### Complete Motor Kits for Sportster Models

Application	Description				
91-03 XL models	Upper and lower front and top center motor mounts, rocker box, primary, inspection, crankcase, shifter, cam, sprocket cover, rear master cylinder mount, right side crankcase, timing hole plug and point cover	36380	Smooth	36379	Knurled
