Retro Solo Seat with Spider Web Stitching

What a killer look these seats have got! We've taken our "Retro" solo seat and sewn in a Spider web design....totally cool!" These seats use the "Slimline" narrow baseplate, but have a little more padding. Flipped up in the back for support and to keep you from sliding off when you give it the gas, they measure 11 1/2" long X 9 1/2" wide. Covered with a high quality black naugahyde with your choice of either red or white "Spider Web" stitching. Seats mount to any frame using seat springs and appropriate mounting brackets that are also available in this section of the handbook. These "Spider Web" seats match up great with our "Spider Web" mirrors.

Solo Seat Foam

A lot of you are opting to buy our solo seat Pans, and upholster in some exotic, one-off covering rather than choosing a finished one we offer. That's cool, but now everyone wants the foam to use with the pans! OK, here ya go. One is a version that's injected molded urethane, about 3/4" thick and formed to fit our Narrow "Slimline" Seat Pan #632148. We're also offering a Universal seat foam that's available in a sheet 14 1/2" wide x 12 1/8" long x 3/8" thick. Fold, cut and use as needed to form to your seat pan. From Eddie & crew at MTIA.

632602 Solo Seat Foam. Universal, 14-1/2" x 12-1/8" x 3/8" sheet

632603 Solo Seat Foam. Molded for #632148 Pan

"Slimline" Contoured Metal Flake Solo Seats

We've taken our "Slimline" solo seats and contoured the front of the seat to match the lines of the frame and provide a little more seating area. These seats have about 1/2" of padding giving an extremely low profile, and flipped up in the back for support and to keep you from sliding off when you give it the gas! These Contoured solo seats measure 13" long X 11 1/2" wide and constructed with a formed steel base. These metal flake versions are covered with a high quality "Zodiac" metal flake covering in your choice of blue, red, charcoal, silver or green. Seats mount to any frame using seat springs and appropriate mounting brackets that are also available in this section of the Handbook. Look great when used along with our matching metal flake grips!
