18887 With O-ring pegs

18888 With rubber cushion pegs

18889 With rubber pegs

Kuryakyn Footpegs with Clevis & Magnum Quick Clamps

This is our most popular style of highway peg. Using our patented Magnum Quick Clamp, they are a snap to install & provide long-haul comfort. There are several styles of footpegs to choose from with various sized clamps to accommodate most common engine guard diameters. They can be installed on any round tubing (frames or engine guards), but it is important to keep in mind that the footpeg itself will end up perpendicular to the bar to which it is mounted.

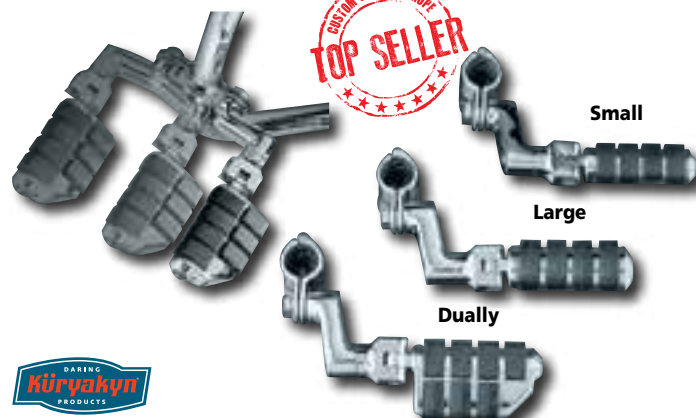

605149 ISO-Wings with Clevis & 1 1/4" Quick Clamp (pr)

605150 Dually ISO-Pegs with Clevis & 1 1/4" Magnum Quick Clamp (pr)

605151 Small ISO-Pegs with Clevis & 1 1/4" Magnum Quick Clamp (pr)

605152 Large ISO-Pegs with Clevis & 1 1/4" Magnum Quick Clamp (pr)

605154 Large ISO-Pegs with ISO-Stirrups & 1 1/4" Magnum Quick Clamp (pr)

Kuryakyn Offset Highway Pegs

These highway pegs utilize our unique offset mount to allow riders a range of adjustment not possible with other clamp-on style highway pegs. The offset can be rotated 360° in a 4" diameter circle to accommodate tall, short, or average height riders. These can be installed on any round tubing (frames or engine guards), but it is important to keep in mind that the footpeg itself will end up perpendicular to the bar to which it is mounted.

605146 Dually ISO-Pegs with Offset & 1 1/4" Magnum Quick Clamps (pr)

605147 Small ISO-Pegs with Offset & 1 1/4" Magnum Quick Clamps (pr)

605148 Large ISO-Pegs with Offset & 1 1/4" Magnum Quick Clamps (pr)
