**Chubby Springer Pullback Drag Bars**

The first ever one-piece pullback drag bar that mounts directly to the Original Equipment Springer Softtail front end on models from late 88-13 for a more sensational custom look! The 6" pullback risers are 4 3/4" on center and feature integrated mounting assembly with built in vibration dampers. They provide the optimum rider hand and wrist positioning for maximum comfort and control. Made 1 1/4" thick with smooth polished riser welds, a brilliant show chrome finish and pre-drilled for internal wiring. Will work with the stock and most custom controls, brake line and wiring.

**Chrome**

**693570** Width 30.5", end rise 4.5", pullback 11"
