

Performance Machine Torque Mirror

Constant improvement has always been the foundation of PM's R&D department and the Torque Mirror is a perfect example of that dedication to progress. The completely unique shape of the mirror head would have been enough for most designers, but the PM guys took it a few steps further and integrated the profile into the stem as well. Bolts to all PM hand controls, as well as stock and many other aftermarket controls.

Performance Machine FL Touring Mirrors

The faired Touring Models have an ideal location for a mirror to tuck out of the way and still provide an excellent rear view. We've taken that concept a few steps further with our machined aluminum Contour Touring Edition Mirrors. Designed for optimal view, while still flowing perfectly with the lines of the fairing. Includes complete mounting system and drill guide for easy installation. Fits 96-13 FLHT, FHCT, FLHTCU, 06-13 FLHX.

Windshield Mounted Mirrors by Kuryakyn

Wipe your bars clean with Kuryakyn's innovative windshield mounted mirrors. This sleek design blends a classy chrome windshield accent strip with gracefully curved arm to support the mirror heads. Kits are available with convex glass turn signal mirrors, Eclipse mirrors, or just the mounts alone so you could use any mirror you choose with a 1/4"-20 threaded stud. Fits all 96-13 Electra Glide models.
