Handle Bar Top Clamp 1"

Precisely milled handlebar clamp made of billet aluminum. It fits all Harley Davidson motorcycles with 1 inch handlebars. It replaces the upper part of the original handlebar clamp and enables a form-fitting installation of the Motoscope mini. Furthermore, the handlebar clamp features 5 integrated LEDs as indicator lights (red, yellow, blue, 2x green) and a connecting cable of approx. 55 cm length. Scope of delivery includes 4 fastening screws (stainless steel) for the handlebar clamp, two fastening screws for the instrument and an installation manual. The Motoscope mini is NOT included and must be ordered separately
