

### Hex-Head Riser Bolts

Zinc-plated hex head steel riser bolts for most aftermarket and OE triple trees. Sold in pairs.

- 84687** 1/2" x 3 1/2" UNF for steel risers
- 84688** 1/2" x 3 1/2" UNC for aluminum risers

### Donnie Smith Signature Series Custom Riser Bolt Kit

Clean up the area between your trees and bars with these custom riser bolt kits designed by custom bike building legend Donnie Smith. They cup around the dampeners and tighten with a sockethead wrench. Available in fine or coarse threaded versions. Chrome plated.

- 110231** 1/2" x 13
- 110232** 1/2" x 20

### Jammer Riser Studs and Bolts

A selection of studs and bolts in varying lengths for use in mounting risers with 1/2"-20 thread size.

- 632228** 1/2"-20 x 1 1/2" riser bolts
- 632229** 1/2"-20 x 1 1/2" riser studs
- 632230** 1/2"-20 x 2" riser bolts
- 632231** 1/2"-20 x 4" sockethead riser bolts

**32769**

### Riser Bolts

A better looking alternative to the Original Equipment bolts. Fit all models with threaded risers from 73-Up.

- 32771** Chromed 12-point bolts (sold in pairs)
- 32769** Chromed torx bolts (sold in pairs)

### Bullet Covers by Pistor

Eye catching bullet covers to hide brake master cylinder banjos or mini brake light switches. Available with chrome, black or polished finishes.

- 681223** Master cylinder banjo cover, black
- 681220** Master cylinder banjo cover, chrome
- 681219** Master cylinder banjo cover, polished
- 681224** Mini brakelight switch cover, black
- 681222** Mini brakelight switch cover, chrome
- 681221** Mini brakelight switch cover, polished

### Chrome Handlebar Clamp Plugs

These plugs fit snugly into any 5/16" sockethead capscrew, the same screw that's used to hold down your handlebar top clamp.

- 12611** Chrome

### Handlebar Control Adapter Sleeves by Joker Machine

These adapters allow you to use 1" handlebar controls on a 7/8" handlebar. Great for Renthal or Pro Taper bars or any other bar you can't find in 1" diameter. Sold in pairs.

- 683576** Adapter sleeves

**632946**

### Retro Handlebar Control Cones by Paughco

Here's some cool little goodies that'll give your ride a decidedly retro look! Reminiscent of the old internal wire set up used on older H/D's, they slip onto the handlebar and butt up to your grips for a clean, finished look. For use with 1" handlebars with internal throttle & clutch set-ups where no switch housings are used. Available in either Chrome plated steel or Brass, and your choice of Tapered or Radiused styles. Affix with silicone adhesive. These look great installed! Sold in Pairs. Made in Nevada, USA by the crew at Paughco.

- 632946** H/Bar Control Cones. Radiused Chrome

**688266**

**688265**

### Universal Handlebar Clamp

Mount just about any accessory or gadget to your handlebar with one of these CNC machined clamps. They fit 1" and 1.25" bars and are available in chrome or black finish.

- 688265** Handlebar clamp, chrome
- 688266** Handlebar clamp, black
