Beringer Aerotec brake and hydraulic clutch Master Cylinders

These items are very compact and light (270g). Fully machined from billet aluminum using a three ball bearing system and covered by the AEROTEC world-wide patents, they bring exceptional feeling. Adjustable lever distance. Available in polished or black versions with Beringer logo on the master cylinder, lever and handlebar clamp you can choose between 2-finger-use short lever (lever 2) and full-hand long lever (lever 4). The clamps are standard without mirror brackets, clamps with mirror bracket are sold separately. Beringer recommends the use of DOT 4 brake fluid.

Brake master cylinder units 12 mm bore (single disc 4&6 piston models)

- 653664 Black, lever 2
- 653665 Polished, lever 2
- 653666 Black, lever 4
- 653667 Polished, lever 4

Brake master cylinder units 14 mm bore (dual disc 4&6 piston models)

- 653668 Black, lever 2
- 653669 Polished, lever 2
- 653670 Black, lever 4
- 653671 Polished, lever 4

Clutch master cylinder units 14 mm bore

- 653672 Black, lever 2
- 653673 Polished, lever 2
- 653674 Black, lever 4
