

### Chrome & Rubber 'Gladiator' Billet Grips

These chrome and rubber billet grips are a perfect match to our billet controls part #610460 & 610461. They will fit all models from 73-Up (except 08-Up Touring models & models with air reservoirs in the handlebars).

**610465** Sold as a pair

### 'eGrip' Ergonomic Hand Grip Sets

Many motorcycle riders experience hand and forearm discomfort resulting from tightly gripping the throttle over long periods of time. Using the 'eGrip,' the rider can control the throttle by pulling on the front rib of the grip and/or pushing on the rear rib. This allows the rider to open his or her fingers while still controlling throttle pressure. The shape of the 'eGrip' gives the rider's hand a flatter top surface to rest against. This relieves Ulnar neuropathy (numbness of the fourth and fifth fingers). Fits all models 73-Up (except 08-Up Touring and models with air reservoirs in the handlebars) Sold in pairs.

- 666051** Chrome hand grip set
- 666050** Rubber hand grip set
- 12889** Throttle pipe for dual cable
- 12880** Throttle pipe for single cable

Note: Requires throttle tube (not included).

### Chrome and Ribbed Grip Set

The rubber inner sleeve has longitudinal ribs which protrude through the slotted housings of the grips.

- 12900** Fit all models from 73-Up (except 08-Up Touring models and models with handlebar air reservoirs)
- 604939** Fit all Touring models from 08-Up with throttle by wire
