

Late Taillight

Original-style taillight for all models from 73-98 as well as 99 Softtail models (except FLSTS and models with Fat Bob fenders).

- 26100** Taillight (repl. OEM 68008-73A)
- 26110** Replacement lens
- 19483** Fender mounting gasket (pack of 10)
- 19770** Chrome license bracket, replaces OEM 59983-75 (late 3-hole)

Replacement Parts for Late Taillights

- 26039** Lens screws (repl. OEM 68026-73) pack of 10
- 26040** Lens gaskets (repl. OEM 68025-73) pack of 10
- 26041** Mounting speed nuts (repl. OEM 7501) pack of 10

Note: Installation of these accessories may be in violation of FMVSS Standard #108. 1998 and later models with Original Equipment 'Circuit Board Taillight' rear fenders require CC #46642 taillight adaptor bracket.

Chrome '39' Style Marker Lights

Styled after the classic good looks of 1939 Ford taillights, these marker lights add just the right touch to your classic ride. Rear lights are attached to a chrome bracket that is held in place by the Original Equipment taillight, and fit all models (except those with Fat Bob fenders and 98-03 XL1200S) from 73-99.

- 27042** Rear marker light and bracket

Note: Designed as supplemental lighting ONLY, not to replace Original Equipment running lights or turn signals.

'Laydown' Taillight Lenses with LED Lights

Do wonders for your bike by adding one of these stylish taillight lenses. These lenses plug into the Original Equipment 4-pin AMP connector on the fender (replace OEM 68140-99 and 68369-03 taillight lenses).

- Combine with a Laydown license frame for a great look
- Most lenses feature 'blacked-out' outside walls for a dimensional look
- Equipped with LED lights and "pig-tail" plug-in or 4-pin AMP connectors for an easy installation
- Fit most models 99-Up (and Sportsters 99-Up)

- 627380** Red laydown lens
- 627381** Red 'Blackout' laydown lens
- 627382** Clear 'Blackout' laydown lens

Note: Installation of these accessories may be in violation of FMVSS Standard #108.

LIGHTING

LED

LED Taillight Conversion Kit by Adjure

Make sure they notice you with this LED kit that converts your stock incandescent taillight into a brighter, longer lasting, LED taillight. It includes a new taillight lens and a 39 LED PC-board that plugs right into the original bulb socket on models from 73-02, or plugs right into taillight connector socket on models from 03-13. Installs in minutes with no wire splicing.

- 634063** Fits all models from 73-03 and Softtail models from 84-99(except FLSTS models)

- 634064** Fits all models from late 03-14 (except Deuce models)

Note: Load equalizer not required. Chrome base not included.

LED

Replacement LED Taillight Assembly

Chrome die-cast taillight assembly comes complete with a high-tech LED array and all required hardware to replace the Original Equipment unit fitted to many models since 73 and in custom applications.

- 46848** Fits all models 73-98 as well as 99 Softtail models

Note: Installation of this accessory may be in violation of FMVSS Standard #108.

LED

LED Taillight with Chrome Reflector for H-D Models, E Approved

LED taillight with chrome reflector and tinted lens for several H-D models with license plate illumination. The package includes two wiring harness adaptors (see separate image) for models with bulb and LED filament taillights from 73-98.

- 652787** LED taillight, E approved
