

### Mallory All Electronic Ignition Distributor

All the features and benefits of an electronic Hall Effect ignition packaged in a distributor for early model Big Twins and for the old school customs. With electronic advance, rev limiting, and choice of Single or Dual Fire for 12-volt systems. Detailed instructions included. Installs without removing the cylinder heads.

**668030** Fits Big Twins from 36-69

### Mallory Unilite Distributor

For faster, easier starting, Mallory's 12-volt electronic ignition system delivers performance and reliability at an affordable price. The billet aluminum distributor utilizes the Unilite ignition module, and a heavy-duty fully adjustable mechanical advance unit.

Includes detailed instructions and wiring harness.

**26916** Fits Big Twins from 36-69

Note: When using stock heads, no head removal is required

### Motor Factory Distributors

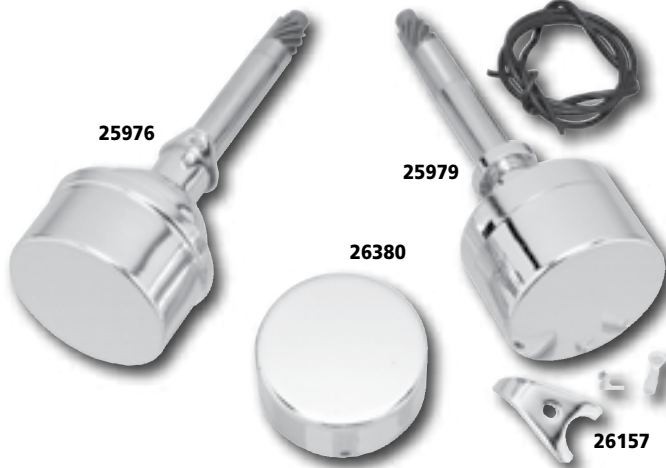

These billet aluminum distributors are available to fit 36-69 Big Twins or 57-70 Sportster models. Single or dual fire electronic ignition with built-in timing light, and can be used with 3 or 5 Ohm coils. Front to rear cylinder is pre-timed and accurate to 1/2 degree. Operates on 10-17 volts and draws less than 1/2 amp. Sealed Hall Effect ignition is impervious to moisture and vibration. Less coil dwell time promotes longer coil life and a hot spark at any RPM. Same size as OEM auto advance distributors and installs without cylinder head removal. Features tool steel auto advance and all components are made in USA.

**632020** Fits Big Twin models from 36-69

**632021** Fits Sportster models from 57-70

**632022** Replacement module (use with CC #632020)

**632023** Distributor clamp for Big Twins (use with CC #632020)

### Ignition Distributors

A complete line-up of top-quality ignition distributors for all Big Twins from 36-69. Both the 36-65 double-bolt hold-down and the 66-69 single-bolt hold-down style are available. Both versions are complete with advance mechanism, drive gear, points, condenser, breaker-to-coil wire, terminal adapter and a smooth chrome-finish cap. The 66-69 model also includes the hold-down clamp. The smooth style chrome cap is also available separately.

**25976** 36-65 complete distributor (2-hole mount)

**25979** 66-69 complete distributor (1-hole mount)

### Replacement Parts

**25978** Chrome cap for CC #25976

**25988** Weights and springs for CC #25979 (sold in sets)

**25992** Timing shaft and cam for CC #25976

**25993** Timing shaft and plate for CC #25979

**25994** Shaft bushings for CC #25976 (sold in pairs)

**25997** Timing cam for CC #25979

**26380** Chrome cap for OEM distributor or CC #25979 (repl. OEM 32589-65)

**651306** Round chrome cap for OEM distributor

**651305** Spring clip for OEM or round CC distributor cap

**26157** Distributor hold-down clamp (repl. OEM 32516-66)

### Roller Bearing Advance Kit

Smooth advance for ignition timing has reached a new level of performance and reliability with our roller bearing advance kit. Roller bearings at the pivots of the advance weights gives the proper amount of ignition advance at the right time every time. Included are all the parts to make the ignition up-to-date with better-than-new performance. Includes the roller bearing weights installed on a quality advance unit shaft and plate, circuit breaker base plate, points cam, wiring harness, springs and timing screw. Fits 70-E78 Big Twins or 71-E78 Sportster models as well as many models from late 78-03 when converting to point-style ignitions.

**12402** Complete kit

**12413** Replacement advance weights with roller bearings, pair (only fits CC #12402 kit)
