Wire Plus Billet Ignition Switch Housings

Mounts to any FXR-style top motor mount that does not have threaded mounting holes. It houses the 96-13 Fat Bob style ignition switch (removable barrel key style) usually found between Fat Bob style gas tanks (ignition switch not included). Chrome finish.

640364 Winged switch housing with start and hi-low switches installed

640365 Plain switch housing ONLY

Note: Use your own Fat Bob ignition switch, or purchase a CC #17717 ignition switch separately.

Wire Plus Chrome Billet Coil Cover

Chrome billet coil cover for use with most coils such as Crane HI-4, Dyna Twin Fire, and Original Equipment Twin Cam 88 units that do not have electrical connections on the ends. Looks great when combined with the CC #640365 switch housing.

640366 Coil cover ONLY

Standard Fuse and Socket

Kit comes with a 20 amp fuse and a socket with 4" leads. Designed for custom applications.

Circuit Breakers by Standard

Top-quality electrical parts for a wide variety of Harley-Davidson applications from the manufacturer of Blue Streak Performance Products. Sold each.

17064 15 amp (repl OEM 74587-94)

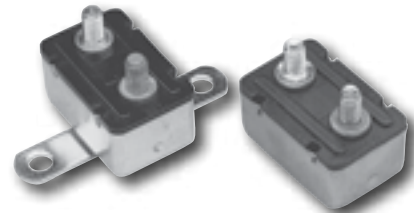

17063 15 amp (repl. OEM 74589-73)

17062 30 amp (repl OEM 74599-77B)

617526 40 amp (repl OEM 74600-97A)

17061 50 amp (repl. OEM 74600-94)

19295 Replaces OEM 9952 (sold on a card of 10)

Motor Factory Circuit Breakers

American-made replacement circuit breakers for most models.

25200 30 amp. Fits FL models from 70-72 with mounting bracket (repl. OEM 74586-70)

25201 30 amp. (repl. OEM 74559-77)

25202 15 amp. (repl. OEM 74589-73)

19295 Replaces OEM 9952 (sold on a card of 10)

Electrical Junction Blocks

Universal connection blocks have brass-nickel plated links and are rated for up to 30 amp loads. Available with four, six or eight connection terminals.

17707 Four connections

17706 Six connections

17705 Eight connections
