

688252

## Universal Skull Heat Shields

Can't get enough of skulls? Neither can we! These beauties are for your exhaust and come in 12" or 9" lengths and include clamps. They complement many of our other skull design products like air cleaners, gas caps and points covers.

**688252** Skull heat shield 12" chrome

**688253** Skull heat shield 9" chrome

## Chrome Flexible Exhaust Covers

Originally used on the early Panheads and Knuckleheads, these 12"-long exhaust covers give your bike a 'vintage' look. Fits most 1 3/4" two-piece pipes.

**15981** Sold each

## Heat Shields by Paughco

Classic styled universal heat shields available in 5 1/2" or 9" lengths. Sold each.

**632272** 9" long heat shield with clamp

**632273** 5 1/2" long heat shield with clamp

280033

## Exhaust Pipe Heat Shields for FL Models

Fits stock exhaust pipes on 4-speed FL models from 70-84 with single or dual exhaust. Includes shield and clamps.

**280033** Front pipe heat shield (repl. OEM 65561-70)

**280037** Rear pipe heat shield (repl. OEM 65563-70)

**280038** Lower 8" long rear heat shield, also great for universal applications (repl. OEM 65565-70A)

## Chrome Heat Shields for FX and FXE Models from 73-83

These chrome heat shields will fit FX and FXE models from 73-83 and most drag or muffler systems.

**280094** Sold in sets

## "Drilled" Stainless Steel Heat Shields

We think the drilled look is bad-ass, and here are some Heat Shields that keep that attitude alive & kickin'! Made from Brushed Stainless Steel, drilled with lightening holes with mounting clamps installed. Fit 2" & 2 1/4" dia. pipes. Available in either a Short version that measures 10 1/4" long, or the Long version that measures 15 3/4" long. Sold each.

**632605** "Drilled" Stainless Steel Heat Shield, long. 15-3/4"

**632606** "Drilled" Stainless Steel Heat Shield. Short. 10-1/4"

## 'Bridge The Gap' Heat Shield for Touring Models by Kuryakyn

Take the "blues" away with this perfectly designed heat shield. Quickly and easily installed, this piece integrates seamlessly and bridges the ugly gap left between the stock heat shields. Take a good look at your bike and you won't know how you were able to live without this part.

**600456** Fits all Touring models with stock front head pipes and heat shields from 93-07

## Chrome Flame Universal Heat Shields

Turn a normal exhaust system into something unusual with chrome-plated steel heat shields cut into the shape of flames. Includes clamps. Sold each.

**78400** For 2" pipes, 11 3/4"-long

**78401** For 1 3/4" pipes, 8"-long

## Khrome Werks Heat Shields for ARII and ARIII Exhaust Systems on Softail Models

These full-coverage heat shields are constructed from chrome-plated, stamped steel. They extend from the exhaust port to the muffler on AR II and AR III ultra high-performance exhaust systems on Softail models. They fit the tapered and the slash-cut styles.

### For Softail Models 84-06

**31064** Chrome 180° full coverage front and rear heat shield set, Sold in sets
