### Mototrix Skull Exhaust Tip

The original Skull Exhaust Tip is made out of 356 cast aluminum. This highly detailed, hand painted and buffed skull will give your ride a look that will blow your mind! Our exhaust belching skull will fit without adaptors over 76,2 mm exhaust pipes and will not restrict air flow. This is not a cheap plastic toy. Adaptors for H-D touring models are available in 3 sizes. Total weight without adaptors is approx. 1 kg.

- 682771 Skull exhaust tip, polished
- 682772 Adaptor, outer diameter 3"
- 682773 Adaptor, outer diameter 3,5"
- 682774 Adaptor, outer diameter 4"

### "Astro Tip" Exhaust Tips by Crime Scene Choppers

These stainless exhaust tips are out of this world. They look like they could be spare parts from Buck Rogers' ship, or perhaps a 50's Detroit dream car! Precision formed from .090" thick 17-4 stainless steel and hand polished to a mirror finish, these distinctive exhaust flares are sure to help your bike stand out from the crowd! 2 5/8" OD at the widest point, tapering back to slip-fit into a 2" Exhaust pipe, and held in place with a stainless screw (included). 4" in overall length, including the slip-fit shoulder. An extremely high quality part, crafted right here in USA by Joe & crew at Crime Scene Choppers. Sold each.

- 650360 Short Curve exhaust end caps, 2"
- 650361 Long Curve exhaust end caps, 2"
- 650362 Tapered exhaust end caps, 2"

### Brass Exhaust Tips by Chica Custom Cycles

Lathe-turned from solid brass then polished smooth and available in three sizes to fit most popular pipes. 1/8" thick at the back of the tip gives pipes a heavy wall look. Gradually tapered cone inside allows exhaust gas to travel smoothly through the tip. Easy to install, slides into place and is held in position using one 1/4"x 20 screw (not included). Note: Drilling hole in existing pipe required. Sold each.

- 380176 Brass Tip. Fits 2 1/4" exhaust pipes
