

Motor Factory Wrist Pin Bushings

Premium grade bushings are machined from high phosphor bearing bronze that's up to two times as stronger than cast bushings. They have excellent hardness, strength and will help minimize wear and provide a much longer service life than plated steel backed bushings. American-made. Sold in pairs.

- 021011** Fits Sportster models from 57-03. Replaces OEM 24331-36
- 021013** Fits Big Twin models from 36-99. Replaces OEM 24334-36

Jims Piston Pin Bushing

Twin Cam 88 Bushings are sold in packs of 2. For removal and installation, use JIMS tool No.1051. To ream to correct size, use JIMS No.1726-3 wrist pin reamer. Bushing O.D. is 1.017" +-.0005, I.D. is .927" (repl. OEM# 24316-99). Use on all Twin Cam 88 models.

- 696587** Piston pin bushing

Wrist Pin Bushing by Kibblewhite

Made from solid U.S. Mill certified SAE 660 bearing bronze bar stock. This material is resistant to impact, wear, and corrosion, and has superb anti-friction properties. It also has excellent machinability, meaning a high quality surface finish can be achieved. This combination of mechanical properties creates a tough durable bushing that will meet or exceed the fitment and service life of all other replacement style bushings available. Wrist pin bushings come in standard size or 0.002" oversized. Designed for Panhead 48-65, Shovelhead 74" 66-77, Shovelhead 80" 78-83, and Evolution 84-99.

- Sold in pairs.**
- 622236** Standard 0.897" in.
 - 622237** Oversize 0.899" in.

Engine Roller Bearings

American-made rollers. Sold in resealable bags of 100.
