

### S&S Quickee Pushrods

S&S developed a pushrod with a new adjuster for use with S&S Shovelhead tappet guides. It turned out to be such a cool idea that it is now available for Twin Cam and Evolution engines. The threaded adjuster screws into the pushrod until the threads disengage and the adjuster simply slides into the pushrod making installation or removal a snap. Once the pushrod is installed and adjusted, the lock nut prevents the adjuster from moving. The ball ends of the pushrods are drilled so that oil can flow through them. This is the stock oiling system for Evolution and Twin Cam engines, but this allows Shovelhead engines to be set up with 84 and later top end oiling, via the pushrods, provided S&S Shovelhead tappet guides and roller rocker arms are also used.

- 601753** Fits Twin Cam engines up to 124" from 99-14
- 601757** Fits Shovelheads up to 103" with stock rocker arms from 66-84
- 601752** Fits Evolution Big Twin engines up to 98" from 84-99, and 124" S&S engines
- 601754** Fits Evolution Sportster engines up to 89" from 86-90

Note: These pushrods may not be used with solid tappets.

### Tappet Block Screw Sets

Replace your worn screws with a new chrome-plated set that replaces the originals perfectly. Packs of 8.

- 93148** 1/4"-24 12 6-point countersunk heads for Big Twins from 53-E76
- 93149** 1/4"-20 12-point heads for Big Twins from late 76-99

### S&S Adjustable Pushrods for Twin Cam Models 99-14

Manufactured from rigid chromemoly steel tubing. Retainer clips and upper pushrod covers have been designed to provide a more stable, rigid cover assembly. Kit includes pushrods, required gaskets, O-rings and replacement pushrod covers and retainer clips. For stock height Twin Cam engines.

- 46754** Complete pushrod kit

### Crankcase Tappet Oil Screens

These are the Original Equipment parts. Can be used in aftermarket applications as well. Fits all Big Twin models from 70-99 (except Twin Cam models).

- 75585** Tappet oil screen. (repl. OEM 24981-70) Pack of 5.

### Dome Lifter Block Bolt Covers

Don't ignore the lifter blocks when going for the full custom look. Set of eight covers install in seconds with included silicon adhesive.

- 66004** Fits Big Twins from late 76-99

### Tappet Guide Puller for Sportster Models

Removes press-fit tappet guides from the crankcase after tappet body adjusting screw is removed. Fits Sportster models from 57-78.

- 20104** Replaces OEM 95724-57

### Crane 'Time-Saver' Adjustable Pushrods for Twin Cam Models and Evolution Big Twins

These 7/16"-diameter, aircraft-quality 4130 chromemoly adjustable pushrods permit quick installation and removal without disassembling the engine because they have a full 2" of adjustment. The adjusting ends are 9 mm in diameter (.354"), which is 40% larger than 1/4" adjusting ends. Set of four.

- 24574** Fits Twin Cam models from 99-14
- 24161** Fits all Evolution Big Twin hydraulic and mechanical lifters, and all Shovelhead mechanical lifters
