### Maxxis 'Classic'

Aggressive styling, high load capacities, and H-rating for speeds up to 130 mph make these tires a great choice for your bike. Unique tread patterns are matched front and rear with deep-offset grooves to channel water away from the contact patch for excellent wet handling. The offset center rib reduces the tendency to wander on rain grooves and pavement irregularities. Maxxis Classics are a tubeless design constructed with a tough nylon carcass, reinforced sidewalls and a specially formulated long-life tread compound.
