Goodridge Custom Stainless Steel Oil Line and Fittings

Custom oil lines are made simple with Goodridge's new do-it-yourself reusable oil line components. This new system utilizes the same chrome steel fittings Goodridge is known for, but in a user-friendly format that allows you to make your own kit. These ground breaking fittings are coupled with their stainless steel braided PTFE lined hose and can be used to assemble oil line kits for virtually any Big Twin on the road.

- 610250** 12Ft roll -6 stainless Teflon hose
- 610251** Chrome oil tank stub fitting
- 610252** Chrome straight oil fitting 1/8 NPT
- 610253** Chrome 45 degree oil fitting 1/8 NPT
- 610254** Chrome 90 degree oil fitting 1/8 NPT

GOODRIDGE

Russell Stainless Steel Hose

3/8" Custom Oil Line Kit

Includes 8-feet of stainless steel hose and eight tumbled aluminum Tube-Seal hose ends, more than enough for most standard applications. However, for bikes with oil coolers or outside-the-tank oil filters, additional hose may be required, and is available in bulk lengths.
