

### S&S Super Stock 79cc Cylinder Heads

S&S Super Stock 79cc cylinder heads are intended for stock engines and other small displacement applications. These heads are compatible with stock Harley-Davidson rocker boxes. They are a very economical performance upgrade designed for use with other performance enhancers and are machined to accept S&S compression releases.

- 06-14 big twin models
- Stock and 3-7/8 inch bore
- Heads can be decked up to .060 inch to increase compression
- 1.940 inch intake and 1.575 inch exhaust valves
- S&S .640 inch lift valve springs
- Stock Harley-Davidson rocker boxes can be retained if S&S manual compression release or S&S Easy Start cams are used.
- Must use S&S valve cover gasket part #90-4124 with stock rocker covers

### JIMS Forceflow Cylinder Head Cooler

This smooth streamline design will keep your Twin Cam running cooler on those hot July summer days in stop and go traffic. JIMS R & D department has come up with a serious way to drop your head temperatures by as much as 100 degrees. Although this mounts in the horn area JIMS has designed a horn relocater hidden inside the fan housing. The fan can be installed to be turned on and off manually or it can be regulated by a thermostat controlled sensor that monitors head temperature and activates the fan when engine temperature rises. This kit is highly recommended for performance motors to help extend engine life. Complete kit includes high powered fan, housing, horn, hardware and all wiring, along with detailed instructions.
